## FY 2006/2007 Awarded Transportation Planning Grants Statewide Transit Planning Studies

CT District	Grant Recipient/ Sub-recipient	Project Title	County	Project Description	Amount
3	Sacramento Area Council of Governments (SACOG)	SACOG Long-Range Transit Plan, Phases II and III: Long Range Transit Plan Elements for Transit Operators		SACOG's Long Range Transit Plan is a multi-year project, which provides a long-range vision for providing transit/paratransit service to the region. SACOG is applying for this grant to provide funding to complete Phases II and III of the Plan.	\$265,590
4	Metropolitan Transportation Commission/ Child Care Coordinating Council of San Mateo County, Inc.	Transit-Related Child Care Study	San Mateo, Alameda, Santa Clara, San Francisco	The study will analyze the impact of child care location on parents' use of public transit. It will study centers located within one-third of a mile of transit stations. Methods used will assess the impact of surveys of child care administrators, parents, and interviews with local government officials and transportation agency professionals involved in the development of transit stations including transit-oriented child care.	\$84,100
4	Metropolitan Transportation Commission (MTC)/ Peninsula Corridor Joint Powers Board	Caltrain Bicycle Master Plan	San Francisco, San Mateo, Santa Clara	MTC will prepare a bicycle assessment along the Caltrain corridor. It will increase ridership by retaining existing bicyclists and attracting additional bicyclists to the system. Transit ridership will increase due to improved station access and parking facilities for bicycles.	\$221,325
4	Metropolitan Transportation Commission	Understanding and Supporting the Choice to Reside in a Transit Oriented Development	San Francisco Bay Region	This study will evaluate demand for Transit Oriented Development (TOD), by identifying factors that attracted TOD residents to their environment. The study will identify elements of successful TOD developments and develop a standard set of TOD performance measures.	\$300,000

## FY 2006/2007 Awarded Transportation Planning Grants Statewide Transit Planning Studies

6	Kings County	Southern San Joaquin	Kings,	This study will provide an assessment of transit services in	\$177,000
	Association of	1	, ,	small, rural communities. It will address the limited local	
	Governments/	and Rideshare	Fresno,	opportunities for residents to access employment, medical	
	Kings County Area	Assessment	Madera	services, and social services. It will also evaluate alternatives	
	Public Transit			and prepare recommendations to improve the minimal level of	
	Agency			transit service in these areas.	
7	Southern California Association of	Evaluating Development	Los Angeles	The project will build upon SCAG's other planning tools to help local governments in corridor and infill planning. This	\$300,000
	Governments	Potential Around		project will develop a model for analyzing transit station	
	(SCAG)/	Transit Stations: New		development and mobility potential that can be used	
	Regents of University	Web-Based		statewide. It will include new density and built capacity	
	of California	Geographic		techniques, including web-based Geographic Information	
		Information System		System and parcel-based analysis tools. The model will aid	
		Tools		planners in understanding the relationship between daily	
				boarding, ridership, mode choice, and housing density.	
11	San Diego	Identifying Crime	San Diego	The goal of this study is to increase transit ridership by	\$110,662
	Association of	Patterns at Transit		developing a methodology for improving safety at transit	
	Governments	Stations		stations. The study will include Geographic Information	
				System mapping in an analysis of crime and demographic	
				data, as well as a site study to identify factors associated with a low level of crime at transit stations.	
11	San Diego	Short Distance	San Diego	SANDAG and the Metropolitan Transit System plan to assess	\$150,000
	Association of	Vanpool Feasibility		the viability of short distance vanpools, which would act as	
	Governments	Study		feeder service to and from three new Bus Rapid Transit	
	(SANDAG)/			(BRT) stations being constructed along Interstate 15 in north	
	Metropolitan Transit			San Diego. Vanpool commuters would be able to connect	
	System			with regional and inter-regional BRT express bus routes that are scheduled to begin operation in 2007.
